# Accelerated Mentorship Programme

# **AMP = Accelerated Mentorship Programme**

## **Become the coach you're destined to be!**

---

The AMP is designed to help coaches focus on the next big task, which will help them become the coach they are looking to become.

This can be business development, support through the Level 4 or developing a highly effective coaching system. Students of SCE have used the AMP to help them smash through targets and set themselves up for success in the future!

### **What's included?**

- Monthly mentoring calls from our Elite Mentorship Team
- Access to monthly roundtables with fellow coaches where we discuss various sports science, business development and personal development topics.
- Access to Phase one of our hugely successful Elite Coach Mentorship programme. In this phase, you can get 3 sports-specific certificates: Track and Field Specialist, Collision Sports Specialist and Strength Sports Specialist. Alongside this, you will access our Personal Performance Profile, which will give you a laser-focused path to becoming the coach you want to be.

### **Duration:**

The AMP runs for 12 weeks and is suitable for those who want the guidance and support they need to tackle any tasks or issues they are facing. your customers and clients, by the end of these courses you'll have a fantastic base knowledge of strength and conditioning.

## OUR MENTORSHIP GRADUATES...

---

“

I found the AMP to be of massive value and help. The calls and tasks I received really helped me to stay accountable, which enabled me to complete the full Youth Pathway, as well as my case study for the L4 course with my Youth athlete. I feel that the tasks helped me to become a much better coach by understanding the intricacies of working with youth athletes. The mentor calls were really valuable and they allowed me to go in depth with the issues I wanted to talk about. Steve was brilliant with me and his support helped me to complete the programme comfortably. I would highly recommend the AMP to anyone looking to make great improvements in their coaching.

- Rickey Shah, AMP Graduate
